

A woman with long brown hair is lying on a white daybed under a white canopy. She is wearing a white sleeveless top and white pants. Her right arm is raised behind her head. The daybed has large orange and red pillows. In the background, there is a green lawn and a wooden coffee table with a blue vase of flowers, a glass of orange juice, and a white cup. The scene is set outdoors in a garden.

MBM LIVING 2017

# MBM

light and breezy

Once again we have enriched our product range by some extraordinary innovations for the new season 2017. Especially with regard to Resysta and wicker we present eye-catchers with classic potential. Comfortable armchairs, chairs and loungers made of Mirotex are light and airy. Resysta presents itself at its best as lounge or spacious daybed. Of course, aluminum and wrought iron are also part of the range. We are ready for the summer.

# Resysta

the future formula is called Resysta

»The Better Wood« is capable of almost everything wood can do, and more! Resysta is processed similar to wood in a joinery. A special surface treatment assures the look and feel of tropical wood. However, Resysta surpasses nature's model in many ways.

Minimum Maintenance – Maximum Appearance.

Resysta is sophisticated, as far as its appearance is concerned, but not very demanding in maintenance. If required, Resysta can be cleaned with water and refreshed with Resysta glaze. In terms of maintaining Resysta, the most important thing is:

lean back and enjoy!

approx. 60% rice husks + approx. 22% common salt + approx. 18% mineral oil = Resysta

**Resysta**<sup>®</sup>  
THE BETTER WOOD

made by

**MBM**

»Resysta is extremely resistant and has an exceptional eco-balance«  
»Resysta deserves the title ›The better wood‹ in all aspects«

## Resysta - A Gift of nature

Our aim was to develop a weather- and water-resistant material with the look and feel of precious wood. Material obtained from renewable raw material, resistant to water, sun, wind and cold and that does not splinter – even after many years. A material which is saving resources and always features consistent high quality.

We have invented it. And it can do a lot more than wood.

Resysta is extremely resistant and has an exceptional eco-balance. Made from rice husks, (an agricultural raw material, which has so far not been used worldwide) it sets new standards in terms of sustainability. The haptic impression is very pleasant and the possibilities almost infinite.

## Resysta - Conserving Nature, Creating Alternatives

A wide belt of tropical rain forests covers our earth. It is the home of countless animals and plants, some of them not yet discovered. This “green lung” stores a large volume of carbon dioxide and is essential for regulation and preservation of the global climate. However, as long as the demand for tropical wood increases, saving the rain forests is easier said than done.

With Resysta everybody can help to save the rain forests. Resysta is 100 % wood-free. This means that not a single tree had to be cut down for it.

- weather resistant
- 100% water resistant
- 100% no wood
- UV-resistant
- easy care
- frost proof

# MBM Resysta & Wickerwork

our dream team

We have made it. Resysta and Twist wickerwork is a good alternative to rattan and wood. No tree has to fall for Resysta and the comfort of highly elastic fibers is unmatched. And all of this presented in an unbeatable look and incredible natural feel. Its your turn now to lean back, feel good and enjoy.

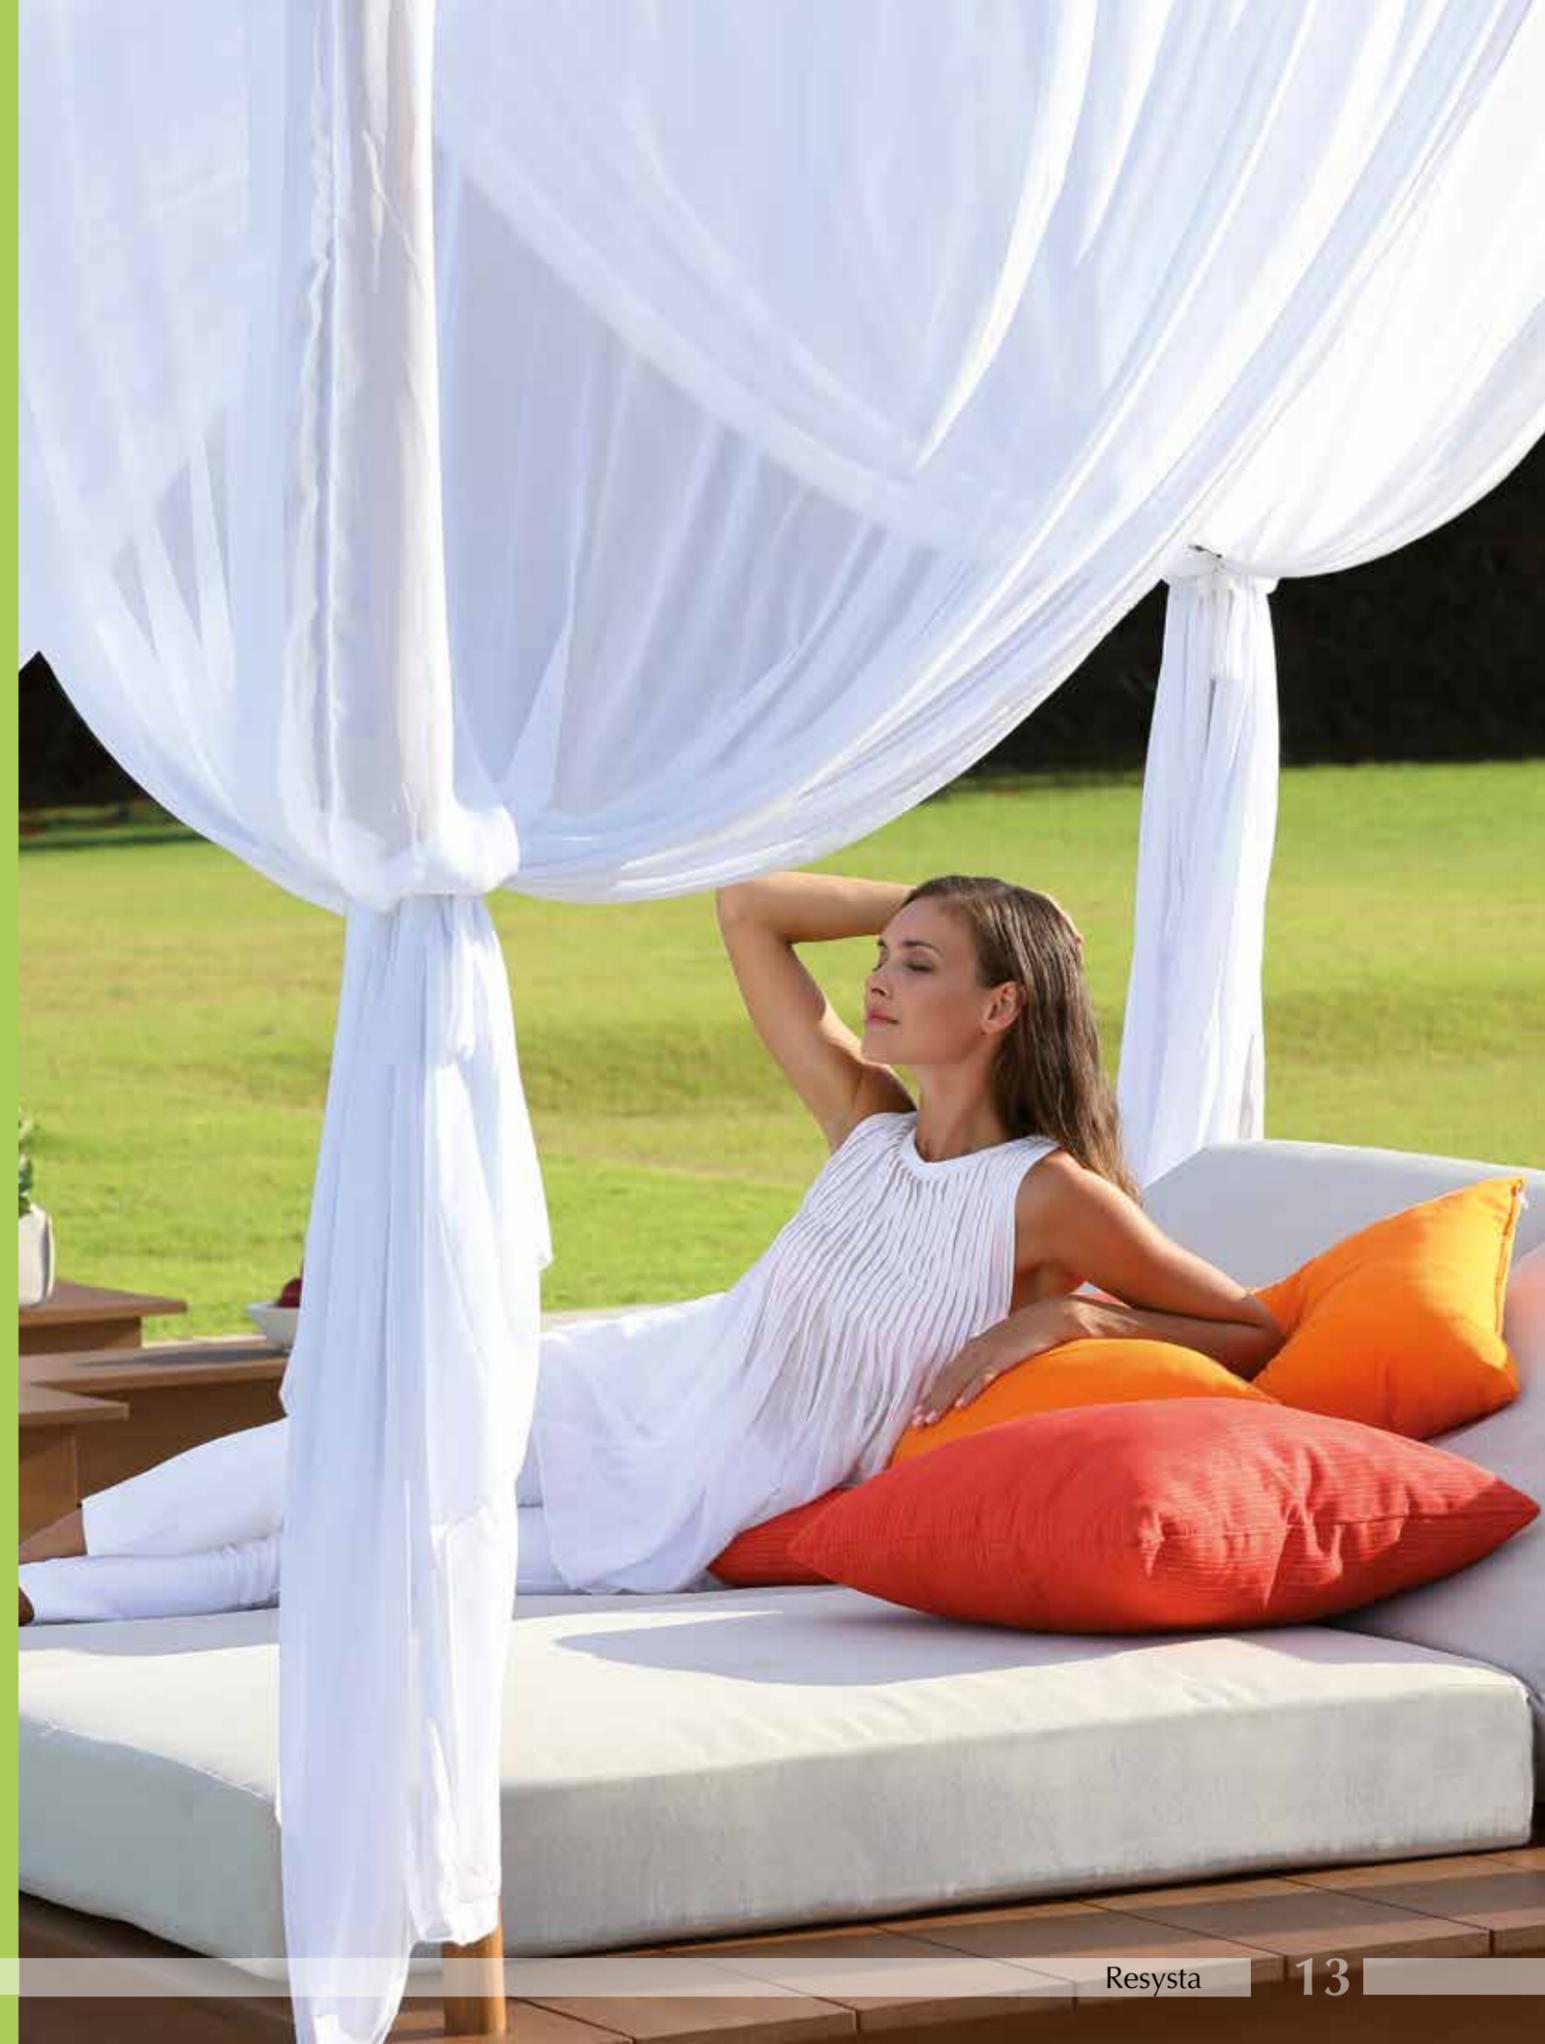

# La Villa Daybed

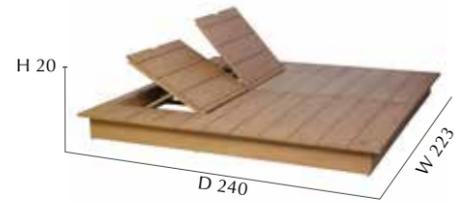

## Relax and Enjoy

The ideal complement to La Villa Lounge is this comfortable daybed. Consisting of two single beds, it can be used either separately or as a very comfortable double bed. For the latter version, an almost baroque looking canopy is available that generously highlights the elegant appearance. The adjustable headrest invites you to relax and recreate.

# La Villa Lounge

## Relaxing in Style

Matching to the dining version, La Villa is also available as lounge. Make yourself comfortable on the spacious seat, sit back and put your feet up. The lounge feeling comes all by itself, you will just have to take care of the relaxing music. Thanks to the innovative shape of the furniture and the matching table, drinks and snacks are always in easy reach.

# Balou & Crossleg

curved beauty -  
classic combination

Balou brings life to your summer. When leaning to the generous back rest, relaxation comes almost by itself. Combined with straight classic furniture, the curved armrests are perfectly accentuated. Stylish relaxation, feels almost as gently drifting on a wave.

Crossleg is a real classic in the range of garden furniture. With its straight-lined and uncompromising design it blends in perfectly with Balou. At the same time it is an outstanding single piece of furniture on its own.

Being made of Resysta - the material of the future – makes it absolutely innovative.

# MBM Aluminium

lightweight and tough

Elegantly designed, comfortable to use. The fact that MBM aluminium furniture also withstand all weather conditions makes them true all-rounder. The frames are powder-coated at 220°C. This ensures high weather resistance. As icing on the cake, we use MBM Tex in our aluminium product range.

# Modern Iron

Craftsmanship Renewed

Not all wrought iron is alike. Its rustic style can at the same time be beautiful and durable. Modern wrought iron furniture by MBM are elegant, delicate and light. The material is perfectly suitable for outdoors. Galvanized and powder-coated, it defies all weather conditions.

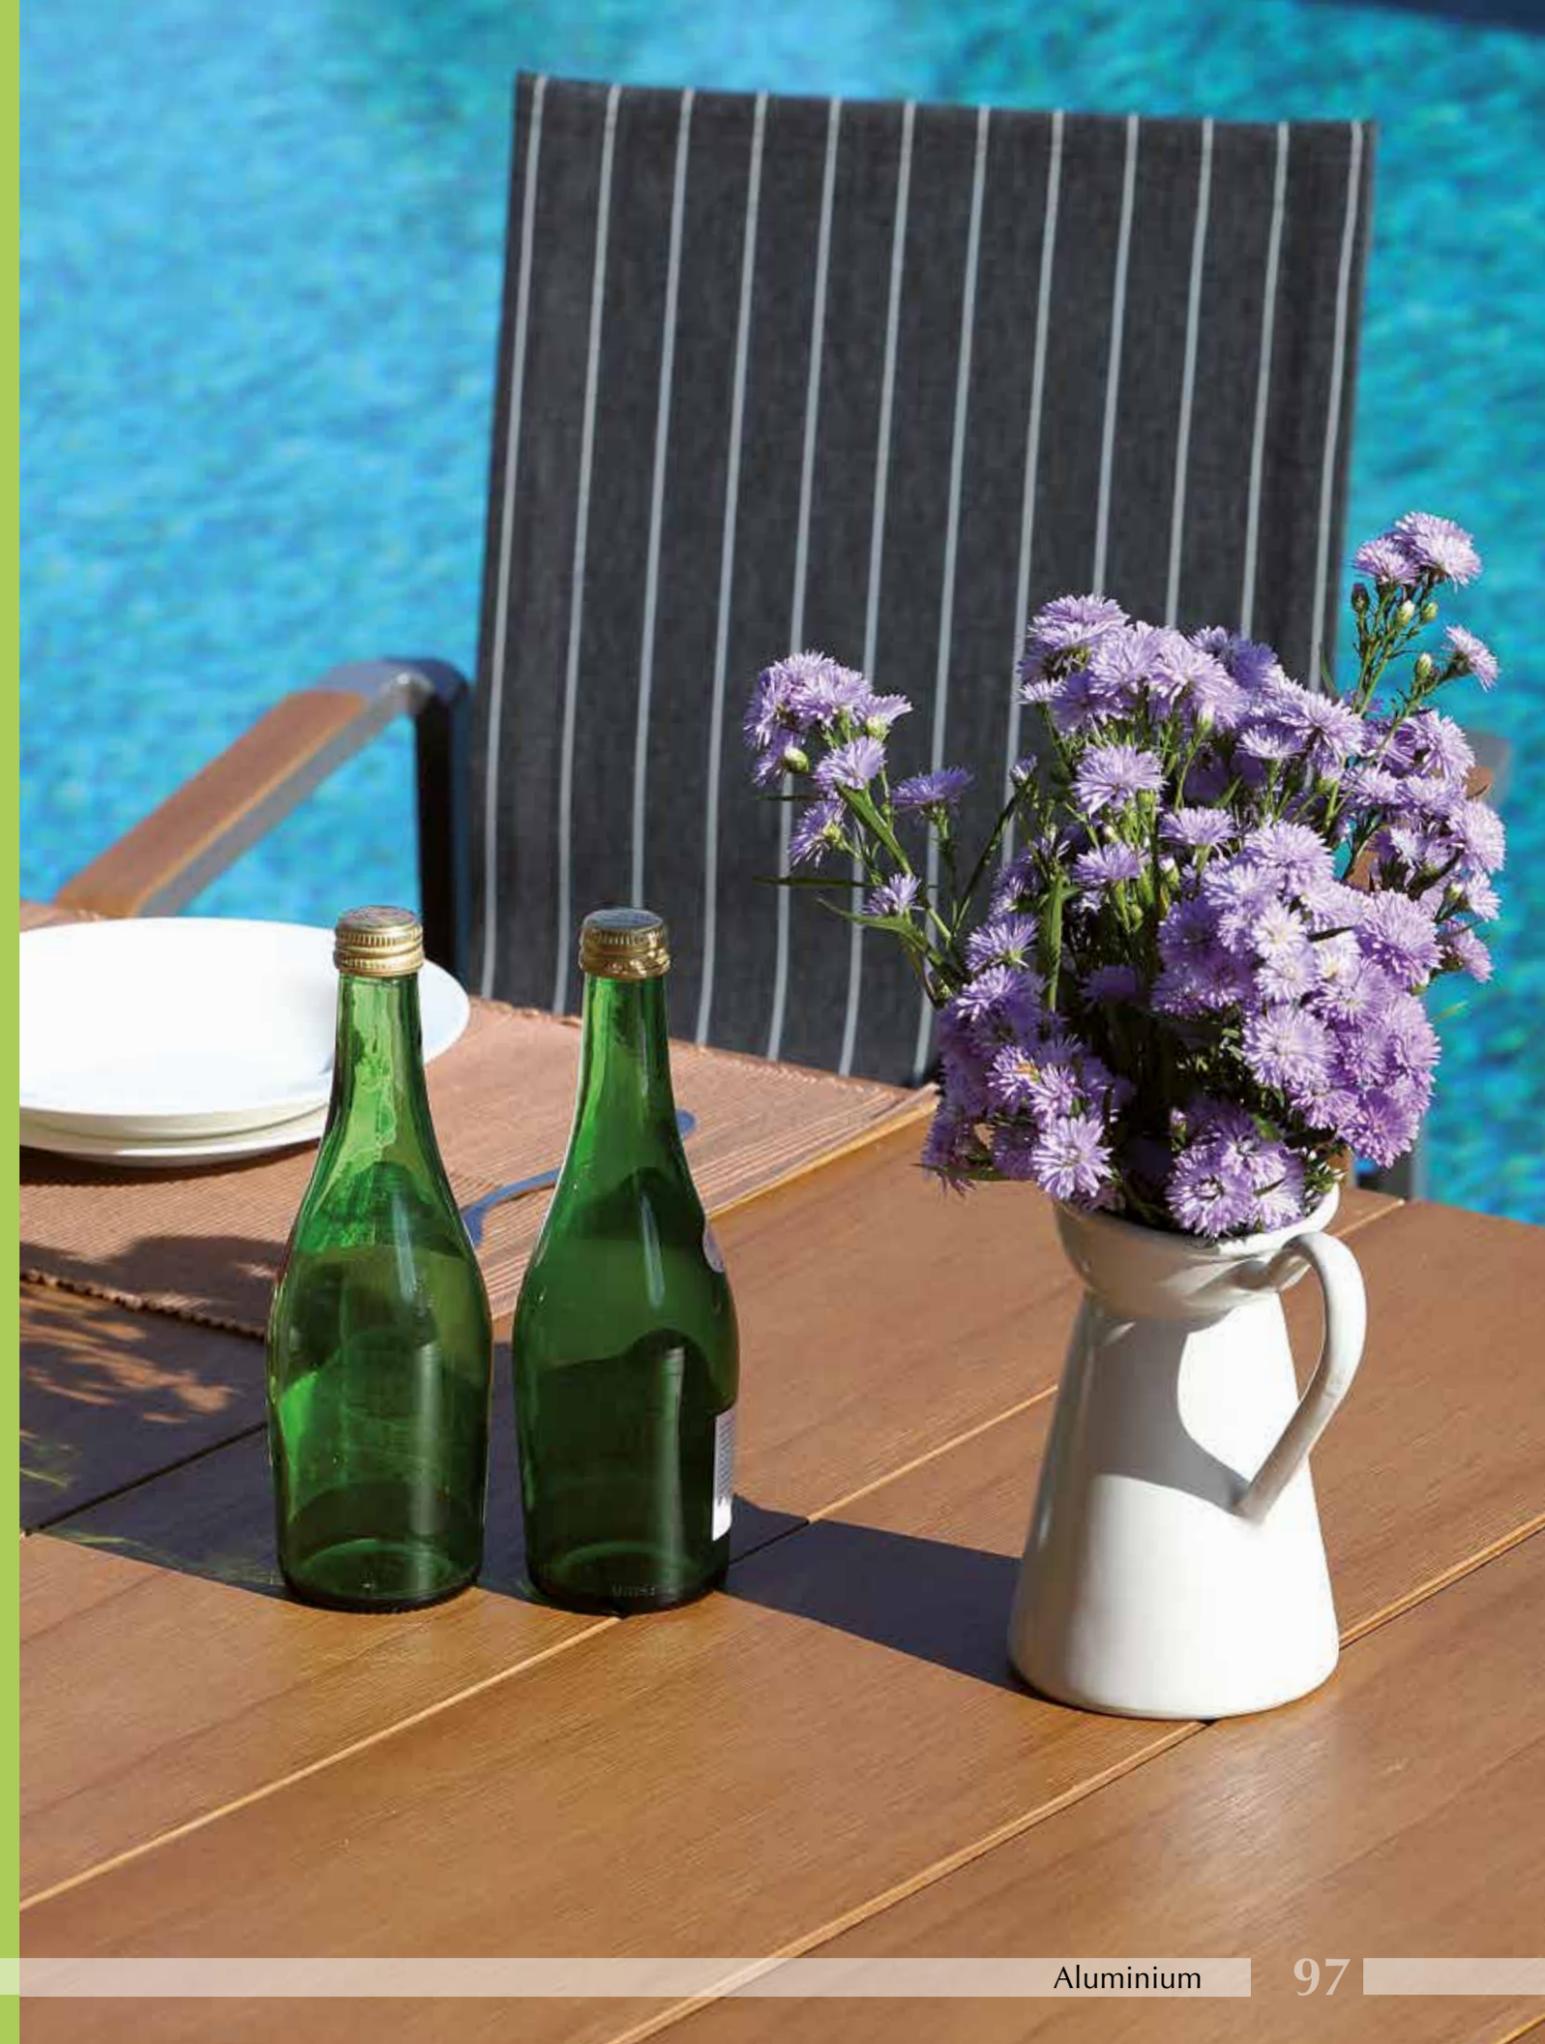

# Kennedy

one for all

The Kennedy range outstandingly combines three of our most successful materials in recent years. High quality aluminum in conjunction with spring steel ensure absolute stability of the frame and at the same time makes the furniture appear almost weightless. The textile mesh covering provides maximum reclining comfort and the armrests made of Resysta are ultimately responsible for the incredibly natural and comfortable feel at almost all temperatures.

# MBM wrought iron

created by the power of fire

MBM wrought iron furniture are the perfect combination of traditional craftsmanship and modern workmanship. They combine the romantic and welcoming appearance with today's standards in materials and handling. Each piece is shaped by hand and then prepared for outdoor use with a high-tech method, galvanized and powder coated. Thus, weathering does not significantly harm the material in the long term.

# Medici

mediterranean chic

Medici - solid wrought iron with subtle antique influences. With its appearance this furniture group conjures a romantic flair to any surroundings. Behind its classical form stands cutting-edge technology. Galvanized iron with a durable, graphite-coloured powder coating. The Medici themselves would have certainly also enjoyed the high-quality black textilene covering.
